

For Immediate Release

Feenaughty Machinery becomes Trimble 2D Earthworks certified by KOBELCO

Katy, TX – KOBELCO Construction Machinery USA (KCMU) is pleased to announce Feenaughty Machinery as a certified Trimble 2D Earthworks provider through KOBELCO. This program certifies Feenaughty Machinery to sell and support KOBELCO Trimble 2D machine guidance and machine control systems directly to KOBELCO customers. Trimble® Earthworks Grade Control Platform by KOBELCO is an innovative, next generation grade control platform from Trimble featuring intuitive, easy-to-learn software that runs on an Android™ operating system. State-of-the-art software and hardware give KOBELCO operators of all skill levels the ability to work faster and more productively than ever before.

About Trimble

Trimble is a global technology company that connects the physical and digital worlds, transforming the ways work gets done. With relentless innovation in precise positioning, modeling and data analytics, Trimble enables essential industries including construction, geospatial and transportation. Whether it's helping customers build and maintain infrastructure, design and construct buildings, optimize global supply chains or map the world, Trimble is at the forefront, driving productivity and progress. For more information about Trimble, visit: www.trimble.com.

About Feenaughty Machinery

Feenaughty Machinery Company has been supporting the construction and forestry industries in the Pacific Northwest for over 100 years. Since our beginning in 1901 Feenaughty has been a family-owned business that believes in hard work and loyalty to our customers and employees. Although our industry has gone through many changes since 1901, we maintain a dedication to supporting our customers' needs with honesty and integrity. Going forward we will continue to support our customers with the equipment and service they have come to expect since 1901. www.feenaughty.com

About KOBELCO Construction Machinery USA, Inc.

KOBELCO Construction Machinery USA offers industry-leading crawler cranes and crawler excavators that include zero tail swing, compact, standard, long-reach, mass excavation, recycling/scrap, and demolition models. KOBELCO is committed to producing quality machines with advanced productivity-boosting features, more standard equipment, and innovative technologies. So, when it comes to superior performance, efficiency, safety, and overall added value, KOBELCO truly is “Built Like No Other”.

For more information on the both purpose-built versions of the KOBELCO SK1300DLC-11 and other crawler excavators and crawler cranes, please visit www.KOBELCO-USA.com or contact:
